_____! In _____,
adjective noun country
the groundhog who makes this prediction is _____
place
_____. What a/an _____ job for a
name of person in room adjective
furry little critter!

Groundhog Day is celebrated on February 2nd. On that day, the groundhog comes out of his hole. He stands up on his hind legs and looks around. If it is sunny, he sees his shadow. Then he gets scared! "Gadzooks!" he says, and dives back into his hole. This means there will be six more weeks of winter. If it is cloudy, there are no shadows. That means there will be an early spring! In the United States, the groundhog who makes this prediction is Punxsutawney Phil. What an important job for a furry little critter!
